U.S. EMBASSY BAMAKO
NOTICE OF FUNDING OPPORTUNITY**

Funding Opportunity Title: Ambassador’s Special Self-Help Program – Annual Program Statement
Deadline for Applications: August 17, 2020
Type of Funding: Economic Support Funds under the Foreign Assistance Act
Maximum for Each Award: \$10,000

A. PROGRAM DESCRIPTION

The U.S. Embassy in Bamako, Mali, announces an open competition for organizations to submit applications to carry out projects through the Ambassador’s Special Self-Help (SSH) Small Grants Program. Please carefully follow all instructions below.

Purpose of Small Grants

The Ambassador’s Special Self-Help (SSH) Program is a grassroots grant assistance program that allows U.S. embassies to support local requests for small community-based development projects. The purpose of the SSH Program is to support communities through modest grants that will have a positive impact on local communities. Equally important, the SSH Program is structured to encourage communities to be self-reliant and undertake similar community development activities in the future.

To be eligible for funding, your project must meet the following criteria:

1. The project should help improve basic economic or social conditions at the local community or village level and have long-term value.
2. The project should be high impact, benefiting the greatest number of people possible.
3. Substantial community participation in the activity is required. Contributions may include labor, materials (such as bricks, sand, gravel, or seeds), land, buildings, or money to ensure the success of the project.
4. Funding is limited to one project per organization. Projects must be completed in 12 months or less.
5. Projects must be self-sustaining upon completion. The U.S. Embassy’s support for the project must be a one-time-only/one-grant contribution.
6. Projects must be within the community’s ability to maintain and operate. Requests for large-scale agriculture or construction projects, or for expensive equipment, are not considered priority projects.
7. Managers of a project should have evidence that they are financially responsible and will be able to account for funds sent to them. Having a bank account, or establishing credit with vendors, are examples of such evidence.
8. The requested amount for implementing activities cannot exceed \$10,000. Project budgets generally range from \$5,000 to \$10,000.

All citizens of Mali representing a civilian, religious, social, community development, special interest, disability, or advocacy group or organization may request funding for a community activity. Organizations must be registered with the proper authorities and must be able to demonstrate that they have adequate internal controls and financial monitoring procedures in place.

Successful applicants should demonstrate strong ties to and support from their local community and local authorities.

Each year, the Political and Economic Section receives more proposals than it can fund. Careful preparation of the application will give your organization the best chance to qualify for funding.

Organizations selected for SSH funding will have to provide ongoing project reports. U.S. Embassy staff may also make periodic visits to the project site.

Recipient organizations must demonstrate their substantial commitment by either contributing to the project financially or providing labor or supplies (in-kind contribution) to carry out the project.

Proposed projects must be well planned and ready to be implemented and must be easily self-sustaining when the grant is completed.

Organizations must obtain approval from community leaders before submission of the proposal to the U.S. Embassy. Community leaders may include local municipal leaders, religious leaders, tribal or clan leaders, or any governing body that has oversight over where the project will be implemented.

Participants and Audiences

All applicants must be registered Non-Profit Organizations (NPOs) and have been in operation for at least one year to be eligible for funding. Proposals are welcome from community-based organizations, faith-based organizations, and non-governmental organizations that work directly with communities.

Limits/Exclusions from Eligibility

The Self-Help Program may only pay for items and technical assistance that are essential for the completion of the project. The Self-Help Program cannot be used for administrative costs, salaries, costs associated with the project manager, travel to and from the Embassy, or items that are not permanent in nature. Costs incurred prior to the actual award of a grant will be reimbursed only by pre-approval of the grants officer at the sole discretion of the Embassy.

Additionally, the Special Self-Help Program does not fund:

- Requests to buy equipment like vehicles, office equipment, copiers, stereos, etc.
- Proposals that have a purely police, military, partisan/political, or cultural emphasis.
- Religious projects, unless they genuinely assist the whole community without regard to religious affiliation.
- Projects that duplicate existing efforts.

- Personal or private businesses.
- Scientific research.
- Projects intended primarily for the growth or institutional development of the organization.
- Scholarships, donations, or honorariums.
- Staff salaries, stipends, or supervision costs for the supervising organization.
- Payment for pesticides, herbicides, labor, salaries, operating costs, printing material, fuel, or land.
- Remodeling or renovation of an existing facility that is in disrepair as a result of neglect or lack of money.
- Office supplies such as pencils, paper, forms, and folders.
- Purchase of alcohol, medicine, school uniforms, school fees, bursaries, food and food parcels, or personal expenses.
- Projects that are partially funded by another donor or from the government of your country. Funds cannot be commingled with funds from other donors, international organizations, or other U.S. government programs.
- Projects that focus on refugees or displaced persons. There are specific U.S. bilateral or multilateral assistance programs designed to address the needs of these populations.
- Previously owned equipment, luxury goods, or gambling equipment.

Please note: We encourage you to contact the U.S. Embassy with questions as you develop your proposal, as applications that include ineligible items may be disqualified.

Elements of Successful Projects

- The project is initiated by the community.
- The project plan contains pre-established long-term goals and a coherent plan to keep the project running in the future.
- A capable project manager who is a long-term resident of the community is responsible for the project.
- The project is assisted by a non-biased umbrella organization, such as a religious mission or a local NGO that provides guidance and arbitration on issues when necessary.
- There is strong coordination and communication amongst the grant-recipient group, local leaders, and local government representatives.
- The project makes use of materials and supplies that can be maintained by the community, and the use of materials that will not harm the environment.
