

U.S. Embassy maintains a list of physicians and medical facilities for distribution to American citizens needing medical care. This is not intended to be exhaustive or definitive. The inclusion of a specific physician or medical facility does not constitute a recommendation and the Department of State assumes no responsibility or liability for the professional ability or reputation of, or the quality of services provided by, the medical professionals, medical facilities, or medical services whose names appear on such lists. Names are listed by specialty; the order in which they appear has no other significance. Professional credentials and areas of expertise are provided directly by the medical professional, medical facility, or medical service.

The following institutions, individuals, hospitals and/or doctors, have informed the Embassy that they are qualified to practice in the categories specified. The Embassy has neither the authority nor the facilities to act as a medical grievance committee. If you encounter unsatisfactory services by parties listed, however, set forth the circumstances in writing and the complaint will be noted in our files.

Important: Before making an appointment to see a medical professional in Mali, ask for consultation fees in advance in order to avoid issues concerning payment for services.
